## NOTICE OF TES-295 APPROVAL (AN-051005)

Dear Brianne Wissel,

The purpose of this letter is to inform you, and your customers, that your product, as listed below, has been tested and approved by Allison Transmission per Transmission Engineering Specification TES-295.

This letter shall serve as your "*Proof of Approval*" from Allison Transmission. No other documents shall be used as proof of approval. Further, this letter shall not be construed as approval for any other product manufactured, blended, packaged, or marketed by your company. Only the product, as listed below, is approved per TES-295.

**Approval Number:** AN-051005  
**Company Name:** ExxonMobil Lubricants and Petroleum Specialties Company  
**Product Brand Name:** Mobil Delvac Synthetic ATF  
**Product Code:** RH000099AAR

The above listed product has been qualified in accordance with Allison Transmission Engineering Specification TES-295. Changes in formulation are strictly prohibited without the express permission of Allison Transmission. Accordingly, Allison Transmission shall be notified prior to any planned changes to the above Product Code (formulation) including base oils, additives or additive components, additives suppliers, and/or dyes. **Note: Failure to inform Allison Transmission of changes in formulation will result in immediate disqualification and annulment of this approval.**

The above listed TES-295 Approval Number shall be clearly displayed on all product labels and/or product data sheets. Numbers may be permanently displayed on the label or ink-jetted onto the product container.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas L. Johnson".

Thomas L. Johnson  
Administrative Engineer, Transmission Fluids
